How School Staff Access the Unique Schools System

Written by Sam Support | Last published at: February 18, 2026

Before you can access the Unique Schools system, you must be added to the school's database and complete the registration process through the Main School App.

This guide explains:

- How administrators add staff to the system
 - How staff download and register
 - How to access all platforms
-

Need Additional Access or Permissions?

By default, staff access may be limited depending on your school's settings.

If you require additional permissions — such as:

- Posting **News or Notifications without approval**
- Access to **Payments**
- Access to **Attendance features**
- Or permissions for any other area of the system

A member of Senior Management must email staffsupport@uniqueschools.ie to request additional access on your behalf.

Initial Step: Ensure You Are Added to the System (Admin)

Before registering, a school administrator must add you to the system.

Administrator Instructions:

- Go to **uniqueschoolapp.ie**
- Navigate to **Administration**
- Select **Add/Edit Students & Staff**

- Click **Add**
- Select **Staff**
- Ensure all details are entered correctly
 - If your school app displays the “**Login with Microsoft**” option, enter email address.
- Click **Submit**

Once the Admin has you added, follow the registration & access steps below.

How Staff Register

Unique Schools provides access across three platforms:

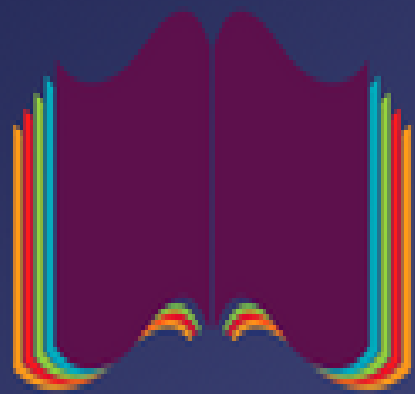

- Main School App
- Administrators App
- Desktop Dashboard

Important:

Registration must be completed through the **Main School App first**.

Note

If your school app displays the “**Login with Microsoft**” option, please scroll to the bottom of this guide and follow the “**Login with Microsoft**” **registration steps** instead of the standard registration process.
